

Travelife Partner - sustainability statement

Our company has achieved **Travelife Partner** recognition.

Travelife Partner is the entry recognition level within the international Travelife sustainability programme for tour operators and travel agents. This recognition confirms our commitment to further improving the sustainability of our business operations through a structured sustainability management system and the implementation of recognised sustainability practices.

Travelife Partner recognition is awarded following an independent assessment based on the Travelife Partner criteria. During this assessment, our sustainability policy, objectives, management system, implementation of key sustainability practices and supporting documentation are evaluated against 60 mandatory sustainability criteria.

To maintain this recognition, our company is independently reassessed every two years to verify that we continue to comply with the Travelife Partner criteria.

Travelife Partner also provides the basis for progressing to the highest recognition level: Travelife Certified. This recognition is awarded following a comprehensive 3 Communication guidelines for Travelife Partner and Travelife Certified, July 2026

independent on-site audit based on the Travelife Certified criteria. This standard comprises more than 200 mandatory sustainability criteria and verifies the implementation of sustainability management and sustainability practices throughout the entire organisation.

More information about the Travelife programme, the different recognition levels, the validity of our current Travelife Partner recognition and the Travelife criteria can be found on the Travelife information website for travellers: www.travelife.info/travelers
